

Legislative Update 3-1-2010 at 3:30 pm

From President Lavin

Today we met with Assembly leadership staff to discuss the pace and potential adjustments to Assembly version of bills S2, S3, and S4.

We have been provided in writing clarification that the proposed 1.5 percent co-pay for health benefits would not be carried into retirement for any active members on the job prior to the potential enactment of this legislation.

Additional testimony will be given by union leadership on Thursday, March 4th before the assembly budget committee.

The assembly has apparently slowed down the legislative process to better understand fully the ramifications of this pending legislation. We will continue to try to keep all members updated as the legislative process moves forward.

Thank you for your anticipated support both physically and financially.

Any information with regard to a physical assembly to support our efforts will be forthcoming.

Fraternally,

Bill Lavin
